OMEGA’S 8TH ANNUAL SEMINAR AT SEA

UNIQUE, MAGNIFICENT and UNFORGETTABLE CONTINUING EDUCATION

OCTOBER 29TH, 2015 – NOVEMBER 2ND, 2015
CONTINUING EDUCATION - DENTISTS, HYGIENISTS and ASSISTANTS
All Texas licensed dentists and hygienists are required to complete 12 hours - and assistants 6 hours - annually of continuing education in accordance with the Dental Practice Act. Omega Seminars is offering the opportunity to earn 6 hours of accredited CEU’s in two, 3 hour seminars while cruising aboard the CARNIVAL FREEDOM OCTOBER 29 - NOVEMBER 02, 2015.

CEU COURSES PRESENTED BY LISA DOWST-MAYO RDH, BSDH

These courses have been approved by the San Antonio District Dental Hygienist Society, an approved provider of continuing education for Dentists, Dental Hygienists and Dental Assistants

SEMINAR 1 - “Want to Find the Fountain of Youth? Call Your Dentist, Not Your Dermatologist”
How much sun is too much and are tanning beds really bad for our skin? How does skin physiology and chemistry really affect our appearance and our risk for developing skin and oral cancer? What causes our skin to wrinkle, and can “The Hands of Time” really be reversed? If you want to know the answers to these questions, then this course if for you. The course will help you discover just how inter-linked dentistry is with dermatology; and by understanding this link and learning dermatological pathology in greater depth, your quality of oral cancer screenings will improve as well as your ability to save lives. This course provides the basis of knowledge needed for the second part of the course, “Today Special: Teeth Cleaning with a Side of Botox.”

SEMINAR 2 - “Today’s Special: Teeth Cleaning with a Side of Botox”
The concept of dental spas has been emerging in the field of dentistry since the mid-90s. Dental spas have learned to partner evidence-based dentistry with evidence-based dermatology. Believe it or not, you already possess the knowledge and expertise to assist patients in skin care maintenance and preservation while maintaining the health of their oral cavity. Dental office revenue and clinician job satisfaction can increase when you begin to integrate some of these simple spa services in your office. This course will also review antioxidants for use on the skin and intraorally, nutrition and overall health and wellness while tapping into the vast existing knowledge base you already possess. You will learn to “extract” this new and exciting information from your brain so you can start applying it clinically. Whether you want to learn to reverse the signs of your own aging, or assist patients with their needs, this course has it all; from cleanings to Botox!

Pricing
• 1 Course - $50
• Both Courses - $85
• GROUP DISCOUNT: 5 People registering for both courses - $325
