Kris Potts, RDH, FAADH, a clinical hygienist for 32 years, member of the American Dental Hygienists’ Association, Fellow and accredited Provider with the American Academy of Dental Hygiene and member of the American Academy for Oral Systemic Health. She is a Past President of the Texas Dental Hygienists Association and currently is Regional Education Manager for the Central US of Spry Xylitol products. Kris offers information to a cross section of medical and dental offices in 13 states and dental topics to consumer, advocacy, support and special interest groups. In addition, she is Owner of Oral Health Promotion Strategies, LLC, providing speakers, resources, product information, education and coaching services for health professionals and consumers.

"Xylitol, Xerostomia and Puzzle Solving"... 9:00 - 12:00 - 3 CEUs Caries management by risk assessment (CaMBRA) is an evidence-based approach to recognizing an individual’s risk for dental caries. Taking appropriate steps to reduce risk at the earliest signs and symptoms of disease rather than waiting for irreversible damage to take place is the goal. Kris will discuss the special concerns of individuals suffering from dry mouth and what we as dental professionals can do differently to provide relief. This course will also cover what xylitol really is, its role in a protocol, and how you can treatment plan a home care regimen to keep the mouth comfortable and healthy.

Course Objectives: After completion of this course attendees will be able to:
* Explain the many health benefits of xylitol
* Assess dental concerns unique to patients suffering from dry mouth.
* Apply appropriate Home Care Recommendations based upon a patient’s caries risk
* Name Caries Risk Factors and Protective Factors

Angie Stone, RDH, BS... Angie Stone, RDH, BS began her career in the Navy as a dental assistant. After completing her enlistment, she continued to assist while obtaining her hygiene degree. As Angie practiced hygiene she completed her bachelors in psychology. She has taught in dental assisting and dental hygiene programs. She has also provided onsite education to dental professionals in 44 states, the District of Columbia, and 6 countries and territories. In addition to numerous published articles, her original research regarding xylitol and elders was published in a peer reviewed medical journal in November of 2013. Angie’s Amazon Best Seller book, Dying from Dirty Teeth, was launched in March of 2015. Her company, HyLife, LLC, brings oral care services to dependent elders because they shouldn’t “die from dirty teeth”. Angie is a six time attendee of CareerFusion and was awarded the Sunstar Award of Distinction in 2012 for her work with xylitol and the geriatric population.

"My Favorite Things...Dental Hygiene Style" 1:00 - 4:00 - 3 CEUs...
Angie has been called, “The Oprah of Dental Hygiene” while presenting this course! As Angie teaches how to make decisions on product choices, she mentions items that have made a positive impact on her life as a hygienist. Attendees receive samples of many of the things Angie speaks about. It is not unusual to hear hygienists squeal with delight and cheer during
the presentation, much like the Oprah’s audience members used to do during her “Favorite Things” show! Come feel Angie’s passion for improving the lives of hygienists everywhere as she teaches how to make “HyDuctions” and shares the HyDuctions she has made throughout her career.

**Course Objectives:** After completing this program, the dental professional should be able to:
1. Recognize the necessity of a periodontal charting and recording of every adult patient, appropriate periodontal treatment sequencing and when periodontal treatment is to begin
2. List various things that can be done to assist the clinician to practice ergonomically
3. Discuss how dental professionals can incorporate minimally invasive dentistry into their practice
4. Understand new technologies available in dental hygiene instruments
5. Identify the role fluoride and xylitol play in the reduction of tooth decay
6. Realize how oral cancer is effecting the population and how dental professionals can reduce the loss of live from this disease
